## **Independent Auditors' Report on Review of Interim Consolidated Financial Statements**

To the Board of Directors İş Finansal Kiralama A.Ş.

### **Introduction**

We have reviewed the interim consolidated statement of financial position of İş Finansal Kiralama A.Ş. (the Company) and its subsidiaries (together will be referred as "the Group") as at June 30, 2021 and the interim consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in shareholders' equity, consolidated statement of cash flows and other explanatory notes to the consolidated financial statements (interim consolidated financial statements) for six-month-period then ended. The management of the Company is responsible for the preparation of interim consolidated financial statements in accordance with " Communiqué on Financial Leasing, Factoring and Uniform chart of Accounts" which shall be applied by Finance Companies published in Official Gazette dated December 24, 2013 and numbered 28861 and Regulation, Communiqué and Circular on Accounting Policies of Financial Leasing, Factoring, Financing and Saving Finance Companies and their Financial Statements and announcements made by the Banking Regulation and Supervision Agency ("BRSA") and Turkish Accounting Standard ("TAS") 34 "Interim Financial Reporting" for those matters not regulated by BRSA Legislation (together referred as "BRSA Accounting and Financial Reporting Legislation"). Our responsibility is to express a conclusion on these interim consolidated financial statements based on our review.

### **Scope of Review**

We conducted our review in accordance with the Standard on Review Engagements (SRE) 2410, "Limited Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial reporting process, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an independent audit performed in accordance with Independent Auditing Standards and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters which would have been identified in an audit. Accordingly, we do not express an audit opinion.

### **Conclusion**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements are not prepared, in all material respects, in accordance with BRSA Accounting and Financial Reporting Legislation.

**Building a better  
working world**

### **Additional paragraph for convenience translation to English**

As explained in detail in Note 2.1, the effects of differences between accounting principles and standards set out by regulations in conformity with BRSA Accounting and Financial Reporting Legislation, accounting principles generally accepted in countries in which the accompanying consolidated financial statements are to be distributed and International Financial Reporting Standards ("IFRS") have not been quantified in the accompanying consolidated financial statements. Accordingly, the accompanying consolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

##### (iii) Non-controlling interests

Non-controlling interests in the net assets of consolidated subsidiaries are identified separately from the Group’s equity therein. Non-controlling interests consist of the amount of those interests at the date of the original business combination and the non-controlling interest in equity since the date of the combination

##### Offsetting

Financial assets and liabilities are offset and the net amount is reported in the consolidated statement of financial position when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

#### **2.2 Changes in Accounting Policies**

Accounting policies taken as the basis in preparing the financial statements of the accounting periods ended on June 30, 2021 are applied consistently with the financial statements prepared as of December 31, 2020.

#### **2.3 Changes in Accounting Estimates and Errors**

If the changes in accounting estimates relate to a specific period, they are applied in the period they relate to whereas if the changes are related to future periods, they are applied both in the period the change is made and prospectively in the future periods. There has not been any significant change in the accounting estimates of the Group in the current period. Material accounting errors are adjusted retrospectively and prior periods’ consolidated financial statements are restated.

#### **2.4 Changes in Standards and Interpretations**

The accounting policies adopted in preparation of the consolidated financial statements as at June 30 2021, 2020 are consistent with those of the previous financial year, except for the adoption of new and amended TFRS and TFRIC interpretations effective as of January 1, 2021 The effects of these standards and interpretations on the Group’s financial position and performance have been disclosed in the related paragraphs.

##### i) The new standards, amendments and interpretations which are effective as at 1 January 2021 are as follows:

###### **Definition of a Business (Amendments to TFRS 3)**

In May 2019, the POA issued amendments to the definition of a business in TFRS 3 Business Combinations standards. The amendments are intended to assist entities to to remove the assessment regarding the definition of business.

The amendments:

- clarify the minimum requirements for a business;
- remove the assessment of whether market participants are capable of replacing any missing elements;
- add guidance to help entities assess whether an acquired process is substantive;
- narrow the definitions of a business and of outputs; and
- introduce an optional fair value concentration test.

The amendments to TFRS 3 are effective for annual reporting periods beginning on or after 1 January 2022 and apply prospectively. The amendments are not applicable for the Group and did not have an impact on the financial position or performance of the Group.

###### **Amendments to TFRS 9, TAS 39 and TFRS 7- Interest Rate Benchmark Reform**

The amendments issued to TFRS 9 and TAS 39 which are effective for periods beginning on or after January 1, 2021 provide reliefs which enable hedge accounting to continue. For these reliefs, it is assumed that the benchmark on which the cash flows of hedged risk or item are based and/or, the benchmark on which the cash flows of the hedging instrument are based, are not altered as a result of IBOR reform. in connection with interest rate benchmark reform.

Reliefs used as a result of amendments in TFRS 9 and TAS 39 is aimed to be disclosed in financial statements based on the amendments made in TFRS 7. The amendments did not have a significant impact on the financial position or performance of the Company / the Group

##### **Definition of Material (Amendments to TAS 1 and TAS 8)**

In June 2019, the POA issued amendments to TAS 1 Presentation of Financial Statements and TAS 8 Accounting Policies, Changes in Accounting Estimates and Errors to align the definition of ‘material’ across the standards and to clarify certain aspects of the definition. The new definition states that, ‘Information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity. The amendments clarify that materiality will depend on the nature or magnitude of information, or both. An entity will need to assess whether the information, either individually or in combination with other information, is material in the context of the financial statements.

The amendments to TAS 1 and TAS 8 are required to be applied for annual periods beginning on or after 1 January 2023. The amendments must be applied prospectively and earlier application is permitted.

##### **Amendments to TFRS 16 – Covid-19 Rent Related Concessions**

In June 5, 2020, the POA issued amendments to TFRS 16 Leases to provide relief to lessees from applying TFRS 16 guidance on lease modifications to rent concessions arising as a direct consequence of the Covid-19 pandemic. A lessee that makes this election accounts for any change in lease payments related rent concession the same way it would account for the change under the standard, if the change were not a lease modification.

The practical expedient applies only to rent concessions occurring as a direct consequence of the Covid-19 pandemic and only if all of the following conditions are met::

- The change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change.
- Any reduction in lease payments affects only payments originally due on or before 30 June 2022
- There is no substantive change to other terms and conditions of the lease.

A lessee will apply the amendment for annual reporting periods beginning on or after April 1, 2021. Early application is allowed. The amendment in question did not have a significant impact on the financial status or performance of the Group.

#### ii) Standards issued but not yet effective and not early adopted

Standards, interpretations and amendments to existing standards that are issued but not yet effective up to the date of issuance of the consolidated financial statements are as follows. The Group will make the necessary changes if not indicated otherwise, which will be affecting the consolidated financial statements and disclosures, when the new standards and interpretations become effective.

#### **TFRS 10 and TAS 28: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments)**

In December 2017, POA postponed the effective date of this amendment indefinitely pending the outcome of its research project on the equity method of accounting. Early application of the amendments is still permitted. The Group will wait until the final amendment to assess the impacts of the changes.

#### **TFRS 17 - The new Standard for insurance contracts**

The POA issued TFRS 17 in February 2019, a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. TFRS 17 model combines a current balance sheet measurement of insurance contract liabilities with the recognition of profit over the period that services are provided. TFRS 17 will become effective for annual reporting periods beginning on or after 1 January 2023; early application is permitted. The standard is not applicable for the Group and did not have an impact on the financial position or performance of the Group.

#### iii) The new standards, amendments and interpretations that are issued by the International Accounting Standards Board (IASB) but not issued by Public Oversight Authority (POA)

##### **Amendments to TAS 1- Classification of Liabilities as Current and Non-Current Liabilities**

On March 12, 2020, the POA issued amendments to TAS 1 Presentation of Financial Statements. The amendments issued to TAS 1 which are effective for periods beginning on or after 1 January 2023, clarify the criteria for the classification of a liability as either current or non-current. Amendments must be applied retrospectively in accordance with TAS 8 Accounting Policies, Changes in Accounting Estimates and Errors. Early application is permitted.

The Group is in the process of assessing the impact of the amendments on financial position or performance of the Group.

##### **Amendments to TFRS 3 – Reference to the Conceptual Framework**

In July 2020, the POA issued amendments to TFRS 3 Business combinations. The amendments are intended to replace to a reference to a previous version of the Conceptual Framework (the 1989 Framework) with a reference to the current version issued in March 2018 (the Conceptual Framework) without significantly changing requirements of TFRS 3. At the same time, the amendments add a new paragraph to TFRS 3 to clarify that contingent assets do not qualify for recognition at the acquisition date. The amendments issued to TFRS 3 which are effective for periods beginning on or after 1 January 2022 and must be applied prospectively. Earlier application is permitted if, at the same time or earlier, an entity also applies all of the amendments contained in the Amendments to References to the Conceptual Framework in TFRS standards (March 2018).

##### **Amendments to TAS 16 – Proceeds before intended use**

In July 2020, the POA issued amendments to TAS 16 Property, plant and equipment. The amendment prohibits entities from deducting from the cost of an item of property, plant and equipment (PP&E), any proceeds of the sale of items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognizes the proceeds from selling such items, and costs of producing those items, in profit or loss. The amendments issued to TAS 16 which are effective for periods beginning on or after 1 January 2022. Amendments must be applied retrospectively only to items of PP&E made available for use on or after beginning of the earliest period presented when the entity first applies the amendment.

There is no transition relief for the first time adopters.

The Group is in the process of assessing the impact of the amendments on financial position or performance of the Group.

##### **Amendments to TAS 37 – Onerous contracts – Costs of Fulfilling a Contract**

In July 2020, the POA issued amendments to TAS 37 Provisions, Contingent Liabilities and Contingent assets. The amendments issued to TAS 37 which are effective for periods beginning on or after 1 January 2022, to specify which costs an entity needs to include when assessing whether a contract is onerous or loss-making and also apply a “directly related cost approach”. Amendments must be applied retrospectively to contracts for which an entity has not fulfilled all of its obligations at the beginning of the annual reporting period in which it first applies the amendments (the date of initial application). ### 2.4 Changes in Standards and Interpretations (Continued)

#### iii) The new standards, amendments and interpretations that are issued by the International Accounting Standards Board (IASB) but not issued by Public Oversight Authority (POA) (Continued)

##### *Practical expedient for changes in the basis for determining the contractual cash flows as a result of IBOR reform*

The amendments include a practical expedient to require contractual changes, or changes to cash flows that are directly required by the reform, to be treated as changes to a floating interest rate, equivalent to a movement in a market rate of interest. Under this practical expedient, if the interest rates applicable to financial instruments change as a result of the IBOR reform, the situation is not considered as a derecognition or contract modification; instead, this would be determined by recalculating the carrying amount of the financial instrument using the original effective interest rate to discount the revised contractual cash flows.

The practical expedient is required for entities applying TFRS 4 Insurance Contracts that are using the exemption from TFRS 9 Financial Instruments (and, therefore, apply TAS 39 Financial Instruments: Classification and Measurement) and for TFRS 16 Leases, to lease modifications required by IBOR reform.

##### *Relief from discontinuing hedging relationships*

- The amendments permit changes required by IBOR reform to be made to hedge designations and hedge documentation without the hedging relationship being discontinued.
- Amounts accumulated in the cash flow hedge reserve are deemed to be based on the RFR.
- For the TAS 39 assessment of retrospective hedge effectiveness, on transition to an RFR, entities may elect on a hedge-by-hedge basis, to reset the cumulative fair value changes to zero.
- The amendments provide relief for items within a designated group of items (such as those forming part of a macro cash flow hedging strategy) that are amended for modifications directly required by IBOR reform. The reliefs allow the hedging strategy to remain and not be discontinued.
- As instruments transition to RFRs, a hedging relationship may need to be modified more than once. The phase two reliefs apply each time a hedging relationship is modified as a direct result of IBOR reform.

##### *Separately identifiable risk components*

The amendments provide temporary relief to entities from having to meet the separately identifiable requirement when an RFR instrument is designated as a hedge of a risk component.

Amendments need additional TFRS 7 Financial Instruments disclosures such as; How the entity is managing the transition to RFRs, its progress and the risks to which it is exposed arising from financial instruments due to IBOR reform, quantitative information about financial instruments that have yet to transition to RFRs and If IBOR reform has given rise to changes in the entity’s risk management strategy, a description of these changes.

The amendments are mandatory, with earlier application permitted. While application is retrospective, an entity is not required to restate prior periods.

The Group is in the process of assessing the impact of the amendments on financial position or performance of the Group.

##### *Annual Improvements – 2018–2020 Cycle*

In July 2020, the POA issued Annual Improvements to TFRS Standards 2018–2020 Cycle, amending the followings:

- *TFRS 1 First-time Adoption of International Financial Reporting Standards – Subsidiary as a first-time adopter:* The amendment permits a subsidiary to measure cumulative translation differences using the amounts reported by the parent. The amendment is also applied to an associate or joint venture.
- *TFRS 9 Financial Instruments – Fees in the “10 per cent test” for derecognition of financial liabilities:* The amendment clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received between the borrower and the lender, including fees paid or received by either borrower or lender on the other’s behalf.
- *TAS 41 Agriculture – Taxation in fair value measurements:* The amendment removes the requirement in paragraph 22 of TAS 41 that entities exclude cash flows for taxation when measuring fair value of assets within the scope of TAS 41.

Improvements are effective for annual reporting periods beginning on or after 1 January 2022. Earlier application is permitted for all.

### 3. SIGNIFICANT ACCOUNTING POLICIES

#### a. Revenue

*Finance lease income:* Initial value of leased assets at the beginning of the leasing period under the Finance Lease, factoring and Financing Companies Law No: 6361 is recognized as finance lease receivables in the consolidated statement of financial position. Interest income resulting from the difference between the total finance lease receivables and the investment value of the leased assets are recognized in the period in which the relevant receivable portion for each accounting period is distributed over the related period using the fixed interest rate through the leasing period. The interest income not accrued yet is followed up under the account of unearned interest income.

*Factoring revenue:* Consists of factoring interest and commission income collected or accrued on advances given to the customers. Factoring commission income is a certain percentage of the total amount of invoices subject to factoring transactions.

*Other interest income:* The outstanding amount of the principal and cash inflows to be calculated over the expected life of the asset is reduced to the related period at the effective interest rate. Dividend income from equity share investments is recognized when the shareholders have the right to receive the dividend. Fee and commissions collected or paid on any transactions are recorded on accrual basis.

#### b. Tangible Assets

Tangible assets, acquired before 1 January 2005 are carried at restated cost for the effects of inflation in TL units current at the 31 December 2004 less accumulated depreciation and impairment losses, and tangible assets acquired after 31 December 2004 are carried at acquisition cost less accumulated depreciation and impairment losses.

Tangible assets are depreciated over the estimated useful lives of the related assets on a straight-line basis over the cost. The estimated useful life, residual values and amortization method of tangible assets are reviewed at each reporting period and corrected if necessary.

Leasehold improvements are depreciated on a straight-line basis at the lower of over their lease periods or over the useful life of the leasehold improvements.

Expenses incurred to replace any part of tangible fixed assets are capitalized. Subsequent expenditures may be capitalized if they increase the future economic benefits of the asset. All other expense items are accounted on an accrual basis in the consolidated statement of income.

The estimated useful lives for the current and comparative periods are as follows:

<u>Definition</u>	<u>Years</u>
Furniture and fixtures	5 years
Other tangible assets	5 years
Leasehold improvements	5 years
Operational Leasing Assets	3 years

Gains and losses on disposal of an item of tangible assets are determined by comparing the proceeds from disposal with the carrying amount of tangible assets, and are recognized net within other operating income/expense in the consolidated statement of income.

The estimated useful life, residual values and amortization method of intangible assets are reviewed at each reporting period and corrected if necessary.

#### c. Intangible Assets

Intangible assets include computer software, licenses and goodwill. Computer software and licenses acquired before 1 January 2005 are carried at restated cost for the effects of inflation in TL units current at the 31 December 2004 less accumulated amortisation and impairment losses and intangible assets acquired after 31 December 2004 are carried at acquisition cost less accumulated amortisation and impairment losses. The estimated useful lives, residual values and amortization method of intangible assets other than goodwill are reviewed at each reporting date. Amortization is charged on a straight-line basis over their estimated useful lives. The useful lives of computer software and licenses are 5 years.

Acquired computer software licenses are capitalized on the basis of the costs incurred to acquire and bring to use the specific software. These costs are amortized over their useful lives. Costs associated with developing or maintaining computer software programs are recognized in the statement of income as incurred. Costs that are directly associated with the development of identifiable and unique software products controlled by the Group, and that will probably generate economic benefits exceeding costs beyond one year, are recognized as intangible assets. Computer software development costs recognized as assets are amortized over their estimated useful lives, not exceeding five years.

The estimated useful life, residual value and amortization method of intangible assets are reviewed at each reporting period and corrected if necessary.

#### d. Impairment of Non-Financial Assets

Assets that have an indefinite useful life, like goodwill, are not subject to amortization, but tested annually for impairment. Assets that are subject to amortization are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset’s carrying amount exceeds its recoverable amount. Recoverable amount is the higher of an asset’s fair value less costs to sell or value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Impaired non-financial assets other than goodwill are reviewed for possible reversal of the impairment at each reporting date.

#### e. Borrowing Costs

All borrowing costs are recorded in the income statement on accrual basis.

#### f. Financial Assets Held For Sale

Assets that are expected to be disposed by sale rather than usage (or disposal asset group) are classified as held for sale. Immediately before classification as held for sale, the assets (or disposal asset group) are remeasured in accordance with the Group’s accounting policies. Thereafter generally the assets (or disposal asset group) are measured at the lower of their carrying amount and fair value less cost to sell. Impairment losses on initial classification as held for sale and subsequent gains or losses on remeasurement are recognized in the consolidated profit or loss table. Gains are not recognized in excess of any cumulative impairment loss.

#### g. Financial Instruments

##### Financial Assets

As of 1 January 2018, the Group within the scope of “TFRS 9 Financial Instruments”, classifies and accounts its financial assets as “Financial Assets at Fair Value Through Profit or Loss”, “Financial Assets at Fair Value Through Other Comprehensive Income” or “Financial Assets at Measured at Amortised Cost” by taking into account their business model and contractual cash flow characteristics. Financial assets are recognized or derecognized according to TFRS 9 “Recognition and Derecognition in the financial statements” requirements. The Company recognizes a financial asset in its statement of financial position when it becomes a party to the contractual provisions of the financial instrument. Financial assets are measured at their fair value on initial recognition in the financial statements.

##### Financial Assets at Fair Value Through Profit or Loss

Financial assets other than financial assets that are measured at amortized cost or at fair value through other comprehensive income, are measured at fair value through profit or loss. Financial assets at fair value through profit or loss are financial assets held for the purpose of generating profit from short-term fluctuations in price or similar factors in the market or being part of a portfolio for profitability in the short term, regardless of the acquisition reason. Financial assets at fair value through profit or loss are initially measured at fair value on the balance sheet and are subsequently re-measured at fair value. Gains or losses arising from the valuation are related to profit or loss.

##### Financial Assets Measured at Amortised Cost

Financial assets measured at amortized cost are those financial assets where the group has the intention and ability to held to the maturity, fixed or determinable payment plan, fixed-term debt instruments. Financial assets measured at amortized cost by using the effective interest rate method, net of any provision for impairment.

##### Financial Assets at Fair Value Through Other Comprehensive Income

The Group has equity investments and debt securities quoted on an active market and investments in fair values are classified as financial assets carried at fair value through other comprehensive income. The Group has equity instruments that are not traded and not quoted in an active market whose fair value differences are reflected in other comprehensive income and are measured at cost, since their fair value cannot be measured reliably.

Gains and losses arising from changes in the fair value impairment loss recognized in the income statement, interest and monetary assets and interest and monetary assets calculated using the effective interest method are recognized in other comprehensive income and the financial assets are accumulated in the fund of revaluation. In the event that the investment is disposed of or is impaired, the total profit / loss accumulated in the revaluation fund of financial assets is classified in the income statement.

Dividends on equity instruments recognized at fair value through other comprehensive income are recognized in income statement when the Company's right to receive payment is established.

##### Financial Lease Receivables, Factoring Receivables and Expected Credit Loss

In accordance with the “IFRS 9-Financial Instruments, the Group recognizes expected credit loss allowance on financial assets at fair value through other comprehensive income or financial assets measured at amortized cost.

Under IFRS 9, the expected credit loss and specific provision is calculated according to the “three-stage” impairment model based on the change in the loan quality of financial assets after initial recognition and detailed in the following headings:

##### **Stage 1:**

An important determinant for calculating the expected credit loss in accordance with IFRS 9 is to assess whether there is a significant increase in the credit risk of the financial asset. Financial assets that have not experienced a significant increase in credit risk since the initial recognition are monitored in the first stage. Impairment for credit risk for the financial assets is equal to the 12-month expected credit losses.

##### **Stage 2:**

Financial assets that experienced a significant increase in the credit risk since initial recognition, are transferred to Stage 2. The expected credit loss of these financial assets are measured at an amount equal to the instrument’s lifetime expected credit loss. In order to classify a financial asset in the second stage, the following criteria is considered:

- Overdue between 30-90 days
- Restructuring of the loan
- Significant deterioration in the probability

In the event of a significant deterioration in the probability of default, the credit risk is considered to be increased significantly and the financial asset is reclassified as stage 2.

##### **Stage 3**

Financial assets with sufficient and fair information for impairment at the reporting date, are classified in the third stage. Expected credit loss of these financial assets is measured at an amount equal to the lifetime expected credit loss. The following basic factors are considered for the classification of a financial asset in the third stage:

- More than 90 days past due
- Whether the credit rating is weakened, has suffered a significant weakness or can not be collected or there is a certain opinion on this matter

Specific provision is provided for factoring receivables in Stage 3.

On the other hand, based on the decision taken by the BRSA within the scope of the COVID-19 outbreak, the 90-day delay period foreseen for classifying financial assets as non-performing loans, effective from 17.03.2020, has been implemented as 180 days until 30.06.2021. The Group allocates provisions in accordance with its risk policies.

###### Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits, and other short-term highly liquid investments with maturities of three months or less than three months from date of acquisition and that are readily convertible to cash and are subject to an insignificant risk of changes in value.

###### Financial liabilities

Financial liabilities and equity instruments issued by the Group are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument. An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. The accounting policies adopted for specific financial liabilities and equity instruments are set out below.

Financial liabilities are classified as either financial liabilities at fair value through profit or loss or other financial liabilities.

###### Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss are initially measured at fair value on the balance sheet and are subsequently re-measured at fair value. The change in fair value is accounted under the statement of profit or loss. The net gain or loss recognized in profit or loss includes any interest paid on the financial liability.

###### Other financial liabilities

Other financial liabilities, including borrowings, are initially measured at fair value, net of transaction costs.

Other financial liabilities are subsequently measured at amortized cost using the effective interest method plus the interest expense recognized on effective interest method.

The effective interest method that calculates the amortized cost of a financial liability and allocates interest expense over the relevant period. The effective interest rate discounts the estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period to net present value of financial liabilities

###### Derivative financial instruments and hedge accounting

The Group’s activities exposes primarily to the financial risks of changes in foreign exchange rates and interest rates. The Group uses derivative financial instruments (primarily foreign currency forward and currency swap contracts) to hedge its risks associated with foreign currency and interest rate fluctuations. Derivative financial instruments are initially measured at fair value on the contract date, and are remeasured at fair value at subsequent reporting dates.

#### h. Business Combinations

The acquisitions of subsidiaries are accounted for by using the purchase method. The cost of the acquisition is measured at the aggregate of fair value, at the date of exchange, of the assets given, liabilities incurred or assumed, and equity instruments issued by the Group in exchange for the control of the acquiree. The acquiree’s identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under TFRS 3 “Business Combinations” are recognized at fair value at the acquisition date, except for non-current assets (or disposal groups) that are classified as held for sale in accordance with IFRS 5 “Non-Current Assets Held for Sale and Discontinued Operations”, which are recognized and measured at fair value less costs to sell.

Goodwill arising on acquisition is recognized as an asset and initially measured at cost, being the excess of the cost of the business combination over the Group’s interest in the net fair value of the identifiable assets, liabilities and contingent liabilities recognized. Goodwill is measured at cost less accumulated impairment. When the Group’s interest in the net fair value of the acquiree’s identifiable assets, liabilities and contingent liabilities exceeds the cost of the business combination, excess amount is recognized immediately as profit.

The interest of non-controlling shareholders in the acquiree is initially measured at the non-controlling party’s proportion of the net fair value of the identifiable assets, liabilities and contingent liabilities recognized.

#### i. Effects of Changes in Exchange Rates

The individual financial statements of each entity within the group are presented in the currency of the primary economic environment in which the entity operates (its functional currency). For the purpose of the consolidated financial statements, the results and financial position of each entity are expressed in TL, which is the functional currency of the Group, and the presentation currency for the consolidated financial statements.

The foreign currency exchange rates used by the Group as at 30 June 2021 and 31 December 2020 are as follows:

	<u>30 June 2021</u>	<u>31 December 2020</u>
USD	8,7052	7,3405
EUR	10,3645	9.0079
GBP	12,0343	9,9438
CHF	9,4339	8,2841
100 JPY	7,8516	7,0930
AUD	6,5449	5,6076

In preparation of the financial statements of the individual entities, transactions in currencies other than TL (foreign currencies) are recorded at the prevailing exchange rates at the transaction date. At each reporting date, monetary items denominated in foreign currencies are retranslated at the rates prevailing at the reporting date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when fair value is determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

### 3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### j. Earnings Per Share

Earnings per share presented in the accompanying consolidated income statement is determined by dividing net income by the weighted average number of shares in issue during the year. In case the number of shares increases through rights issue as a result of capital increases from internal sources, earnings per share calculations are made by restating the weighted average number of shares in comparison periods. The correction refers to the consideration of the number of shares used in the calculation as if the unpaid issue was performed at the beginning of the comparison period.

In Turkey, companies can increase their share capitals by issue of “Bonus Shares” to their shareholders from their retained earnings. In computing earnings per share, such issues of “Bonus Shares” are treated as issued shares. Accordingly, the retrospective effect for those share issues is taken into consideration in determining the weighted-average number of shares outstanding used in this computation.

#### k. Events After the Reporting Period

Subsequent events means the events occurred between the reporting date and the authorization date for the announcement of the financial statements. In accordance with IAS 10 “Events After Reporting Period Date”; subsequent balance sheet events that provide additional information about the Group’s position at the balance sheet dates (adjusting events) are reflected in the consolidated financial statements. Events that does not require adjustment of financial statements are disclosed in the notes when material.

#### l. Provisions, Contingent Liabilities and Contingent Assets:

In accordance with IAS 37 “Provisions, Contingent Liabilities and Contingent Assets”, a provision is recognized when the Group has a legal or constructive obligation as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. If the specified criteria are not met, the Group discloses the related issues in the accompanying notes. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability if the time value of the money is significant to the provision.

Contingent assets are disclosed in the notes and not recognized unless they are realized.

### 3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### m. Segment Reporting

The Group has two different operating segments, leasing and factoring, that is used by management to make decisions about resources to be allocated to the segments and assess their performance, and for which discrete financial information is available (Note 27).

#### n. Taxes on Income

Turkish Tax Legislation does not permit a parent company and its subsidiary to file a consolidated tax return. Therefore, provisions for taxes, as reflected in the accompanying consolidated financial statements, have been calculated on a separate-entity basis.

Income tax expense or credit comprises current and deferred tax. Current tax and deferred tax are recognized in profit or loss except to the extent that it relates to a business combination, or items recognized directly in equity or in other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognized for the following temporary differences: the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss, and differences relating to investments in subsidiaries and jointly controlled entities to the extent that it is probable that they will not reverse in the foreseeable future. In addition, deferred tax is not recognized for taxable temporary differences arising on the initial recognition of goodwill. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

A deferred tax asset is recognized for unused tax losses, investment incentives, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred taxes related to fair value measurement of available for sale assets are charged or credited to Other Comprehensive Income and subsequently recognized in profit or loss together with the deferred gains that are realized.

### 3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### o. Employee Benefits / Reserve for Employee Termination Benefits

In accordance with the existing social legislation in Turkey, the Group is required to make certain lump-sum payments to employees whose employment is terminated due to retirement or for reasons other than resignation or misconduct. Such payments are recognized in the accompanying consolidated financial statements as accrued. The computation of the liability is based upon the retirement pay ceiling announced by the government.

In accordance with IAS 19 “Employee Benefits”, the Group calculated the employee severance indemnities incurred due to retirement of its employees by discounting the future liabilities to their present values, by using actuarial method and reflected to the consolidated financial statements. The main estimates used are as follows:

	<u>30 June 2021</u>	<u>31 December 2020</u>
Discount rate	4,07%	4,07%
Expected rate of salary/limit increase	8,00%	8,00%
Probability of retirement	100%	100%

#### p. Statement of Cash Flows

The Group presents statement of cash flows as an integral part of its financial statements to inform the users of financial statements about its ability to manage changes in its net assets, its financial structure and the amount and timing of its cash flows under changing conditions.

In the statement of cash flows, the cash flows for the period are reported with a classification of operating, investment and financing activities. Cash flows related with operating activities compose of the cash flows arising from core operations of the Company. Cash flows related with investment activities compose of cash flows that the Group generates from or uses in investment activities (tangible and financial investments). Cash flows related with financing activities represent resources that the Group uses for financing activities and the reimbursements of such resources.

#### r. Share Capital and Dividends

Common shares are classified as equity. Dividends on common shares are reclassified as dividend payables by netting off from the retained earnings in the period in which they are approved and disclosed.

#### s. Related Parties

In accordance with IAS 24 “Related Party Disclosures” shareholders, key management and board members, in each case together with companies controlled by or affiliated with them, and associated companies are considered and referred to as related parties. Related party transactions consist of the transfer of the assets and liabilities between related parties by a price or free of charge. For the purpose of the accompanying consolidated financial statements, shareholders of the Company, the companies controlled by/associated with them, key management and the Board members of the Company are referred to as related parties (Note 10)..

#### Corporate Tax

The Group is subject to the Turkish corporate taxes. Provision is made in the accompanying financial statements for the estimated charge based on the Group’s results for the period.

Turkish tax legislation does not allow a parent company to file a tax return on its consolidated financial statements. Therefore, the tax liabilities reflected in this consolidated financial statements are calculated separately for all companies included in the scope of consolidation.

Corporate tax is applied on taxable corporate income, which is calculated from the statutory accounting profit by adding non-deductible expenses, and by deducting dividends received from resident companies, other exempt income and investment incentives utilized.

As at 30 June 2021, corporate income tax rate is 25 (31 December 2020: 22).

#### 35. TAXATION (Continued)

An amendment is made to Law No: 7061 “Amendment of Certain Tax Laws and Some Other Laws” which was proposed by the General Directorate of the Prime Ministry's Laws and Decrees dated 28 September 2017 and published in the Official Gazette No. 30261 dated December 5, 2017; which is the addition of Provisional Article 10" to the Law No. 5520 on Taxation of Institutions, as stated in Article 91. "In accordance with the provisional article 1, the rate of 20% in the first paragraph of Article 32 of this Law shall be 25% for the corporate earnings of the taxation periods of the institutions in 2018, 2019 and 2020 shall apply.

In Turkey, there is no procedure for a final and definitive agreement on tax assessments. Companies file their tax returns between 1 April and 30 April of the following year (between 1st and 30th of the following fourth month of the tax year for the tax responsible who have special tax years). Tax authorities may, however, examine such returns and the underlying accounting records and may revise assessments within five years.

#### Transfer Pricing

In Turkey, the transfer pricing provisions have been stated under the Article 13 of Corporate Tax Law with the heading of “disguised profit distribution via transfer pricing”. The General Communiqué on disguised profit distribution via Transfer Pricing dated 18 November 2007 sets details about implementation.

If a taxpayer enters into transactions regarding sale or purchase of goods and services with related parties, where the prices are not set in accordance with arm's length principle, then related profits are considered to be distributed in a disguised manner through transfer pricing. Such disguised profit distributions through transfer pricing are not accepted as tax deductible for corporate income tax purposes.

Purchase, sale, manufacturing and construction operations, leasing and leasing transactions, borrowing and issuing money, bonuses, fees and similar transactions that require payments are considered as purchase or sale of goods or services in every condition. Companies are required to fill in the transfer pricing form which will be included in the annex of the annual corporate tax return. In this form, the amounts of all transactions with related companies and the methods of transfer pricing related to these transactions are specified in the related accounting period.

(Amounts are expressed in thousands of Turkish Lira (“TL”) unless otherwise stated.)

### 36. EARNINGS PER SHARE

Earnings per share are calculated by dividing profit or loss by the weighted average number of ordinary shares outstanding during the period. In Turkey, companies can raise their share capital by distributing “bonus shares” to shareholders from retained earnings. In computing earnings per share, such “bonus share” distributions are assessed as issued shares. Accordingly, the retrospective effect for those share distributions is taken into consideration in determining the weighted-average number of shares outstanding used in this computation.

Earnings per share is calculated by dividing net income distributable to shareholders by the weighted average number of shares issued.

The weighted average number of shares of the Group and earnings per share for the periods ended 30 June 2021 and 30 June 2020 are as follows:

	<b>1 January- 30 June 2021</b>	<b>1 January- 30 June 2020</b>

#### (d) Financial risk management objectives

The Group’s corporate treasury function provides services to the business, coordinates access to domestic and international markets, monitors and manages the financial risks relating to the operations of the Group through internal risk reports which analyses exposures by degree and magnitude of risk. Such risks include market risk (including currency risk, interest rate risk and price risk), liquidity risk and credit risk.

The Group uses derivative instruments to minimize the effects of such risks and it also uses such instruments for hedging. The Group does not enter into or trade any financial instruments (including derivative financial instruments) for speculative purposes.

In order to minimize potential risks, the Group reports monthly to the risk management committee which is in charge of monitoring risks and the policies applied.

#### **38. ADDITIONAL INFORMATION ON FINANCIAL INSTRUMENTS (Continued)**

##### **(e) Market risk**

Market risk is the risk that changes in market prices, such as foreign exchange rates (refer to section f), interest rates (refer to section g) and equity prices will affect the Group’s income or the value of its holdings of financial instruments. To manage risks relating to exchange rates and interest rates, the Group uses various derivative financial instruments including the following:

- “Forward foreign exchange contracts” to hedge the exchange rate risk arising from operations.
- “Currency swaps” to control the exchange rate risk of foreign currency denominated liabilities.

At the Group level, market risk exposures are measured by sensitivity analysis.

There has been no change in the Group’s exposure to market risks or the method it uses to manage and measure such risks.

##### **(f) Currency risk management**

Currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates. The Group has exposure to the effects of fluctuations in the prevailing foreign currency exchange rates on its consolidated financial position and cash flows. The Group manages this currency risk by using the foreign exchange derivative contracts.

#### Foreign currency sensitivity

The Group is mainly exposed to USD and EUR exchange rate risks.

The table below indicates the sensitivity of the Group to USD and Euro when there is a 15 % of change in such exchange rates. The Group uses 15 % of rate change when it reports its foreign currency risk to the top management and this rate represents the top management’s expectation on the exchange rate fluctuations. Sensitivity analysis made in relation to the Group’s exposure to foreign currency at the reporting period is determined based on the fluctuations at the beginning of the fiscal year and the analysis are fixed during the reporting period. Positive amount refers to an increase in the net profit.

(Amounts are expressed in thousands of Turkish Lira (“TL”) unless otherwise stated.)

### 38. ADDITIONAL INFORMATION ON FINANCIAL INSTRUMENTS (Continued)

#### (f) Currency risk management (Continued)

##### Forward foreign exchange contracts and currency swaps

The Group uses forward foreign exchange contracts and currency swaps to cover the risks of receipts and payments, expected sales and purchases in a certain foreign currency.

#### (g) Interest rate risk management

The Group is exposed to interest rate risk as the Group borrows funds at both fixed and variable rates. Such risk is managed by making a proper classification between fixed and variable rate liabilities.

##### Interest rate sensitivity

The interest rate sensitivity analysis below is based on the Group’s exposure to interest rate risk at the reporting date and estimated interest rate fluctuations at the beginning of the fiscal year, and is fixed during the reporting period. The Group management makes its sensitivity analysis based on a 100 base point interest rate fluctuation scenario. This rate is also used in reporting to the top management.

As at 30 June 2021 and 31 December 2020, the interest rate profile of the Group’s interest-bearing financial instruments is as follows:

	<b>30 June 2021</b>	<b>30 December 2020</b>
<b><u>Fixed rate instruments</u></b>		
Financial assets:		
Cash and Cash Equivalents	341.510	344.213
Finance lease receivables	8.203.897	7.136.244
Other Finance Lease Receivables	-	-
Factoring receivables	3.901.616	3.598.443
Financial liabilities:		
Funds borrowed	8.305.297	7.534.456
Debt securities issued	1.803.838	1.146.096
<b><u>Variable rate instruments</u></b>		
Financial assets:		
Finance lease receivables	19.474	15.725
Factoring receivables	780.264	821.414
Financial liabilities:		
Borrowings	1.899.341	1.873.052

(Amounts are expressed in thousands of Turkish Lira (“TL”) unless otherwise stated.)

#### 38. ADDITIONAL INFORMATION ON FINANCIAL INSTRUMENTS (Continued)

##### (g) Interest rate risk management (Continued)

###### Interest rate sensitivity (Continued)

If interest rates were 100 base points higher at the reporting date and all other variables were fixed:

Interest income from finance leases with variable interest rates would be higher at an amount of TL 208 (30 June 2020: TL 121).

Interest income from factoring transactions with variable interest rates would be higher at an amount of TL3.848 (30 June 2020: TL 1.467).

Interest expense on funds borrowed with variable interest rates would be higher at an amount of TL 8.749 (30 June 2020: TL 5.251).

##### (h) Other price risks

The Group is exposed to equity securities price risks because of equity investments. Equity securities are held especially for strategic purposes rather than trading purposes. These investments are not traded by the Group.

###### Equity price sensitivity

Sensitivity analysis below is determined based on the equity share price risks exposed as at the reporting date.

Equity price risk is the risk that the fair values of equities decrease as a result of the changes in the levels of equity indices and the value of individual stocks.

If data used in the valuation method were 15% higher / lower and all other variables were fixed:

The effect on equity (without tax effects) as a result of change in the fair value of equity instruments quoted to Borsa İstanbul (Istanbul Stock Exchange) held as financial assets available for sale in the accompanying consolidated financial statements, due to a reasonably possible change in equity indices, with all other variables held constant, would be TL 38.162 (31 December 2020: TL 41.882 ).

#### (i) Credit risk management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral where appropriate, as a means of mitigating the risk of financial loss from defaults. The Group’s exposure to credit risks and credit ratings of its counterparties are monitored periodically. Credit exposure is controlled by counterparty limits that are reviewed and approved by the risk management committee.

Finance lease receivables consist of a large number of customers, spread across diverse industries and geographical areas. Ongoing credit evaluation is performed on the financial condition of accounts receivable.

Sectoral allocation of finance lease receivables is as follows:

	<u>31 December 2020 (%)</u>	<u>31 December 2019 (%)</u>

#### (j) Liquidity risk management

The Group management formed liquidity risk management policy for the Group’s short, medium and long term funding and liquidity management requirements. The Group manages its liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities by constantly monitoring forecasts and actual cash flows and matching the maturity profile of financial assets and liabilities.

#### Liquidity risk table

The following table details the maturities of non-derivative financial assets and liabilities. The tables below have been drawn up based on the undiscounted contractual amounts of the financial assets and liabilities based on their maturities. Interest amounts to be collected and to be disbursed regarding the Group’s assets and liabilities have also been included in the table below.

##### (k) Fair value of financial instruments

Except for the items below, the Group management estimates that the carrying amount of the financial assets and liabilities approximate to their fair value.

Fair value of the financial instruments is determined based on the reliable data provided from financial markets in Turkey. Fair value of other financial assets is determined by the benchmarking market value of a similar financial asset or by assumption methods which includes discounting future cash flows with current interest rates.

The table below refers to the comparison of carrying amounts and fair values of financial instruments:

##### (l) Fair value hierarchy

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices)

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).
